

Coding Workshops at MLPs

“Learn to code while having fun with robots”

Module 1–Code Using Robots: Geometry

Term 2 intake for Code Using Robots Module 1 is now open. This interactive introductory workshop introduces kids to coding using robots. It is play-based and is fun and educational. Program design links to fundamental Learning Areas in school curriculum. Participants also learn STEM concepts & apply them in the coding activities. Module 1 is the first of four structured modules in a year-long program progressing from Geometry, to Time-Speed-Distance, then our Explorer’s 1 and 2 which are creativity based.
Suitable for Years 2 to 6

Date & time: Monday after-school from 3:20PM to 4:20PM

Duration: Week 2 (7 May) & concluding in Week 8 (18 June)
