What is the Gol Brasil Futbol Skool?

The Gol Brasil Futbol Skool (5-a-side soccer) is a once a week training program designed for players to play in a safe, fun environment with emphasis on learning both individually and in small groups. Our sessions are based on 5 components, which are:

1. Fun warm up games
2. Individual technique, skill and practice
3. 1 v 1 duels
4. Overloads and finishing
5. Small sided games

We believe that every player matters so it's important that each practice is designed so that individuals get lots of touches on the ball, have more space to be successful in and have more opportunities to score goals. We like to finish each session with small sided games for players to showcase their new skills in an encouraging and challenging environment.
